My name is Matej Liptak. I'm more than 1 year tennis coach of Karol Beck. I confirm that on 16 sep 2005 K. Beck my player on the practise session between 9,30 and 11,00 was not feeling good and he was tired. After that practise my player called me and said that he will not play afternoon because he is not feeling good. After we meet around 11,45am i saw him and i saw his symptoms like shaking hands and fever and for the second time i saw him in doctors office around 1,30pm with the same symptoms like in the morning.
